

Welcome to our company

Import Assist is designed to link your company to the rest of world. With years of experience in dealing with Asia, USA and Europe, we can help you expand your business worldwide.

We all know that China's manufacturing capabilities are dynamic, and while the Australia - China trade are entering a period of sound development, Import Assist gives you the insight on how to capitalize on the economy growth China enjoys.

China and Australia enjoy the relationship they share, with the volume of bilateral trade maintaining an annual growth rate of over 30% in recent years. China has now become the third largest trade partner and the second largest export market of Australia.

Whether you are a small business or a large corporation, Import Assist can do as little as introduce you to contacts in China, source products for you, or manage your importing and exporting for short or long term.

Import Assist has QC (quality Control) personnel posted in every major city in China, so you can receive your products with full confidence.

Please select an option for further information or select "Contact us" for any consulting enquiries.
