

Key Services

Outsourcing

As a business owner, you need to find the most cost effective ways to manufacture your products. Can you manufacture some of these components offshore? China's ever increasing modern facilities, and substantial number of companies wanting to manufacture can help you do this, and all you need is a drawing and some details.

Import Assist will help in these areas

- Locating a suitable factory to manufacture your components
- Helping with design of your product
- Obtaining prices and samples for your approval
- Complying with Australian Standards
- Quality Control
- Business travel to China, itinerary visa's and flights included
