

Product and Services

Services

Import Assist has trained research and developers, searching all industrial zones of China. Our specialists search for several manufactures with not only the lowest prices, but also quality products with a proven reliability.

Once you have received your samples, specifications, and pricing, Import Assist can act as your representative in China managing your deliveries, shipping papers, Quality Control and any other related service, so that you will just sit back and wait for your goods.

The objective of Import Assist is to give you the flexibility that suits your company. We can do as little as consult for a few hours or manage your whole import /export programme.
