

Key Services

Importing from China

Are you a purchaser for a major company, or a sole business owner? You can help your business by importing products for sometimes a fraction of the price you are now paying. Import Assist can help you with finding the products and the right factories to deal with, introducing you to the suppliers, and showing you the factories your products can be sourced from.

Any requirements that you have, Import Assist can generally comply with.

Import Assist is flexible, we can help you with the whole process, down to unloading the container or pallets for you, or we can simply introduce you to the suppliers and let you do the rest for yourselves.

Every business and company is different, so we cater for all situations.

Import Assist will help in these areas

- Locating the products for you
- Obtaining samples and pricing
- Complying with Australia Standards
- Strict Quality Control
- Business travel to China, itinerary visa's and flights included
