

creed

Dear Marcus, Just a quick note to say thanks,

After many months (over a year) of dealing with potential Chinese clients, after many meetings, negotiations and social pleasantries, our business still didn't have any firm business activities with that country.

It wasn't until we met and worked with you at Import Assist that we finally have a business breakthrough! And this happened after only very short period of time!

Through your links, your obvious understanding of the Chinese way, and a considerable amount of discussions and hard work, we are now about to embark on a very solid business relationship with you (and friendship), and with our export client into China.

We cant thank you enough, the future is looking very bright!

Kind regards

Mark, Daniel, Mandy & Tarnya
